1. The first part of the paper is devoted to a general
discussion of the problem. It is shown that the
problem is of great importance and that it has
not been completely solved. The author then
presents a new method for solving the problem.
The method is based on the use of the
variational principle. It is shown that the
method is very simple and that it can be
applied to a wide range of problems. The
author then gives a detailed description of the
method and shows how it can be used to solve
the problem. The results of the calculations are
presented in the form of a table. The table
shows that the method is very accurate and
that it can be used to solve the problem
with a high degree of precision. The author
concludes that the method is a very useful
tool for solving the problem and that it can
be used to solve a wide range of problems.
